Historical Happenings

September 7 New Orleans, Louisiana

Corbett takes title from Sullivan

John L. Sullivan had the weight advantage, 212 pounds to 178, but Jim Corbett had more speed and finesse as he dethroned the world heavyweight champion from Boston in the 21st round. "Gentleman Jim" scored a knockout over his favored opponent, who was clearly out of shape after touring the United States and Australia in a stage production.

September 22 Springfield, Massachusetts

A gasoline-powered motorcar designed and built by the Duryea brothers, Charles and Frank, made its first successful run here today. Propelled by a one-cylinder engine with electrical ignition mounted in a second-hand carriage, it is believed to be the first such vehicle to run in the United States. The two brothers hope to produce more motorcars, which will be offered for sale to the public.

October 23 Chicago, Illinois **Chicago World's Fair opens**

The dedication ceremony was held today at Jackson Park opening the World's Fair in Chicago celebrating the 1492 discovery of America by Columbus. Free refreshments were served to the 100,000 onlookers and some in the crowd resorted to fisticuffs to grab the limited number of sandwiches.

Two attractions at the fair seem especially popular. One is the Ferris wheel, built by George W.G. Ferris. The device is a giant wheel 250 feet in diameter with 36 boxes or cars attached. Dozens of passengers stand in each box as they are carried up and around the wheel.

The other most popular attraction is a dancer who calls herself "Little Egypt" and purports to be from Persia. She shocks women in the audience by wearing silk trousers and doing a "hoochee-coochee dance," which involves undulating movements as she waves a handkerchief in each hand.

On September 19, 1893 George Wadsworth went to the World's Fair

November 8 Washington, D.C.

Grover Cleveland regained the presidency in today's election, defeating Benjamin Harrison, the Republican who ousted him from the White House four years ago. Neither Harrison in 1888 nor Cleveland this year won a majority of the popular vote. However, they won their respective races by piling up enough electoral votes.

New York City

A bitter fight between two giants of the electrical industry has ended with the merger of Edison General Electric, controlled by Thomas A. Edison and Thomson-Houston Electric, controlled by George Westinghouse. The new company will be called General Electric.

RATES OF POSTAGE.

POSTAL CARDS, 1 cent each, go without further charge to all parts of the United States and Canada. Cards for foreign countries (within the Postal Union) 2 cents each. *Postal Cards are unmailable* with any writing or printing on the address side, except the direction, or with anything pasted upon or attached to them.

ALL LETTERS, to all parts of the United States and Canada, 2 cents for each ounce or fraction thereof.

LOCAL, OR "DROP" LETTERS, that is, for the city or town where deposited, 2 cents where the carrier system is adopted, and 1 cent where there is no carrier system.

FIRST CLASS.—Letters and all other written matter, *whether sealed or unsealed*, and all other matter *sealed, nailed, sewed, tied, or fastened in any manner* so that it cannot be easily examined, 2 cents for each ounce or fraction thereof.

SECOND CLASS.—Only for publishers and news-agents; 1 cent per pound.

NEWSPAPERS and Periodicals (regular publications) can be mailed by the public at the rate of 1 cent for each 4 ounces or fraction thereof.

THIRD CLASS.—Printed matter, in *unsealed wrappers only* (all matter inclosed in notched envelopes must pay letter rates), 1 cent for each 2 ounces or fraction thereof, *which must be fully prepaid*. This includes books, circulars, chromos, engravings, handbills, lithographs, music, pamphlets, proof-sheets and manuscript accompanying the same, reproductions by the electric pen, hektograph, metallograph, papyrograph, and, in short, any reproduction upon paper by any process *except handwriting and the copying press*. Limit of weight 4 lbs., except for a single book, which may weigh more.

FOURTH CLASS.—All mailable matter not included in the three preceding classes which is so prepared for mailing as to be *easily withdrawn from the wrapper* and examined, 1 cent per ounce or fraction thereof. Limit of weight, 4 lbs. Full prepayment compulsory.

REFORWARDING.—Letters will be forwarded from one post office to another upon the *written* request of the *person addressed*, without additional postage charge; but unclaimed packages *cannot be returned to the sender* until stamps are furnished to pay the return postage.

PERMISSIBLE WRITING.—No writing is permitted on third or fourth class matter except as follows: The name and address of sender on the outside or inside of package, preceded by the word "from." On the wrapper may also be written the names and number of articles inclosed. The sender is further allowed to mark a word or passage in a book or paper to which he desires to call special attention. He may also write a simple inscription

or dedication upon the cover or blank leaves of a book or pamphlet. There may be attached to articles of merchandise, by tag or label, a mark, number, name, or letter for purpose of identification. Printed circulars may contain the written name of the sender, or of the addressee, and the date. Any other writing on third or fourth class matter will subject the package to letter rates of postage, and render the sender liable to a fine of ten dollars for each offense. Printed matter may be inclosed with fourth class matter, but the whole package is subject to the rate of 1 cent per ounce or fraction thereof.

POSTAL NOTES.

Upon payment of a fee of 3 cents each, Postal Notes for any amount under Five Dollars may be purchased at any Money-order Office, payable to bearer at any time within three calendar months from the last day of the month during which it was issued; but payable *only* at such Money-order Office as the purchaser may select or at the office of issue.

HINTS in case of Accidents.

Drowning. 1. Loosen clothing, if any. 2. Empty lungs of water by laying body on its stomach and lifting it by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief, or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs, about twenty times a minute. Alternately raising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. 5. Apply warmth and friction to extremities. 6. By holding tongue forward, closing the nostrils and pressing the "Adam's apple" back, (so as to close entrance to stomach), direct inflation may be tried.—Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. 7. DON'T GIVE UP! People have been saved after HOURS of patient, vigorous effort. 8. When breathing begins, get patient into a warm bed, give WARM drinks, or spirits in teaspoonfuls, fresh air and quiet.

Burns and Scalds. Cover with Cooking Soda and lay wet cloths over it. Whites of Eggs and Olive Oil. Olive or Linseed Oil, plain, or mixed with Chalk or Whiting.

Lightning. Dash cold water over a person struck.

Sunstroke. Loosen clothing. Get patient into shade and apply ice-cold water to head.

Mad Dog or Snake Bite. Tie cord tight above wound. Suck the wound and cauterize with caustic or white-hot iron at once, or cut out adjoining parts with a sharp knife.

Venomous Insects Stings, &c. Apply weak Ammonia, Oil, Salt Water, or Iodine.

Fainting. Place flat on back; allow fresh air and sprinkle with water.

Tests of Death. Hold mirror to mouth. If living, moisture will gather. Push pin into flesh. If dead the hole will remain, if alive it will close up.

Cinders in the Eye. Roll soft paper up like a lamp lighter and wet the tip to remove, or use a medicine dropper to draw it out. Rub the *other* eye.

Fire in one's Clothing. *Don't run,*—especially not down stairs or out of doors. Roll on carpet, or wrap in woolen rug or blanket. Keep the head down, so as not to inhale flame.

Fire in a Building. Crawl on the floor. The clearest air is the lowest in the room. Cover head with a woolen wrap, wet if possible. Cut holes for the eyes. Don't get excited

Fire in Kerosene. *Don't use water*, it will spread the flames. Dirt, sand or flour is the best extinguisher; or smother with woolen rug, table-cloth or carpet.

ANTIDOTES FOR POISONS.

First. Send for a Physician.

Second. INDUCE VOMITING, by tickling throat with feather or finger. Drinking hot water or strong Mustard and water. Swallow Sweet Oil or whites of Eggs.

Acids are antidotes for ALKALIES, and *vice versa.*

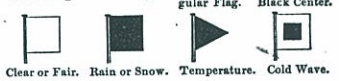
SPECIAL POISONS AND ANTIDOTES.

Acids. MURIATIC, OXALIC. ACRTIC. SULPHURIC (Oil of Vitriol). NITRIC (Aqua Fortis).	Soap-suds, Magnesia, Lime-water.
Prussic Acid.	Ammonia in water. Dash water in face.
Carbolic Acid.	Flour and water, mucilaginous drinks.
Alkalies. POTASH. LYE. HARTSHORN. AMMONIA.	Vinegar or Lemon juice in water.
Arsenic. **Rat Poison.** **Paris Green.**	Milk, Raw Eggs, Sweet Oil, Lime-water, Flour aud water.
Bug Poison. **Lead.** **Saltpetre.** **Corrosive Sublimate.** **Sugar of Lead.** **Blue Vitriol.**	Whites of Eggs or Milk in large doses.
Chloroform. **Chloral.** **Ether.**	Dash cold water on head and chest. Artificial respiration. Piece of ice in rectum.
Carbonate of Soda. **Copperas.** **Cobalt.**	Soap-suds and mucilaginous drinks.
Iodine. **Antimony.** **Tartar Emetic.**	Starch and water. Astringent infusions. Strong tea.
Mercury AND ITS SALTS.	Whites of Eggs. Milk. Mucilages.
Nitrate of Silver. **Lunar Caustic.**	Salt and water.
Opium. **Morphine.** **Laudanum.** **Paregoric.** **Soothing Powders or Syrups.**	Strong coffee, hot bath. Keep awake and moving at any cost.
Strychnine. **Tinct. of Nux Vomica.**	Mustard and water, Sulphate of Zinc. Absolute quiet. Plug the ears.

NEW WEATHER SIGNALS.

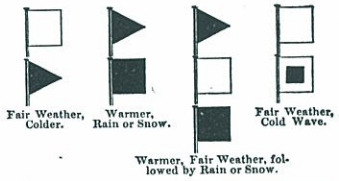
[Adopted for general use by the United States Signal Service on and after March 1, 1887.]

INTERPRETATION OF SIGNALS.



No. 1, white flag, clear or fair weather, no rain. Number 2, blue flag, rain or snow. Number 3, black triangular flag, refers to temperature, and above numbers 1 or 2, indicates warmer weather; below numbers 1 or 2, colder weather, and when not displayed, stationary weather. Number 4, white flag with black center (cold-wave flag) sudden fall in temperature; this signal is usually ordered at least twenty-four hours in advance of the cold wave. It is not displayed unless a temperature of forty-five degrees, or less, is expected, nor is flag number 3 ever displayed with it.

DISPLAY EXAMPLES.



TO FIND LENGTH OF DAY OR NIGHT.

AT any time of the year add 12 hours to the time of the sun's setting, and from the sum subtract the time of rising for the length of the day. Subtract the time of setting from 12 hours, and to the remainder add the time of rising next morning for the length of the night. These rules are equally true for apparent time.

VALUES IN UNITED STATES MONEY

OF THE

PURE GOLD OR SILVER

REPRESENTING RESPECTIVELY THE MONETARY UNITS AND STANDARD COINS OF FOREIGN COUNTRIES.

The first section of the Act of March 3, 1873, provides "that the value of Foreign Coin, as expressed in the money of account of the United States, shall be that of the pure metal of such coin of standard value," and that "the values of the standard coins in circulation of the various nations of the world shall be estimated annually by the Director of the Mint, and be proclaimed on the first day of January by the Secretary of the Treasury."

The estimates of values contained in the following table are those made by the Director of the Mint, January 1st, 1890, in compliance with the above stated provisions of law.

RELATIVE RANK OF CITIES.

In 1870 there were but fourteen cities each containing more than 100,000 inhabitants. In 1880 this number had increased to twenty, and in 1890 to twenty-eight.

In 1880 there was but one city, New York, which had a population in excess of a million. In 1890 there were three, New York, Chicago, and Philadelphia.

The number and relative rank of cities having a population of 100,000 or more at the date of each of these censuses are set forth in the following table.

BUSINESS LAW IN DAILY USE.

The following compilation of business law contains the essence of a large amount of legal verbiage:

If a note is lost or stolen, it does not release the maker; he must pay it, if the consideration for which it was given and the amount can be proven.

Notes bear interest only when so stated.

Principals are responsible for the acts of their agents.

Each individual in a partnership is responsible for the whole amount of the debts of the firm, except in cases of special partnership.

Ignorance of the law excuses no one.

The law compels no one to do impossibilities.

An agreement without consideration is void.

A note made on Sunday is void.

Contracts made on Sunday cannot be enforced.

A note by a minor is void.

A contract made with a minor is void.

A contract made with a lunatic is void.

A note obtained by fraud, or from a person in a state of intoxication, cannot be collected.

It is a fraud to conceal a fraud.

Signatures made with a lead pencil are good in law.

A receipt for money is not always conclusive.

The acts of one partner bind all the rest.

"Value received" is usually written in a note, and should be, but is not necessary. If not written it is presumed by the law, or may be supplied by proof.

The maker of an "accommodation" bill or note (one for which he has received no consideration, having lent his name or credit for the accommodation of the holder,) is not bound to the person accommodated, but is bound to all other parties, precisely as if there was a good consideration.

No consideration is sufficient in law if it be illegal in its nature.

Checks or drafts must be presented for payment without unreasonable delay.

Checks or drafts should be presented during business hours, but in this country, except in case of banks, the time extends through the day and evening.

If the drawee of a check or draft has changed his residence, the holder must use due or reasonable diligence to find him.

If one who holds a check as payee or otherwise, transfers it to another, he has a right to insist that the check be presented that day, or, at farthest, on the day following.

A note indorsed in blank (the name of the indorser only written) is transferable by delivery, the same as if made payable to bearer.

If the time of payment of a note is not inserted, it is held payable on demand.

Labor Day Celebration in Franklin in which George Wadsworth drove a wagon for the "Jog Along Clothing Co" on September 5, 1892

Milford Daily News

FRANKLIN.

Labor Day Observed in Grand Style.

The observance of Labor Day in Franklin was one of the most extensive local celebrations ever known in the history of the place. Every industry in the town was represented in the trades procession; every merchant in town, with but two or three exceptions, entered into the affair with earnestness and enthusiasm, and the result was not only a surprise, but a gratifying success.

One hundred and sixty teams took part in the trades procession, which started at 9 o'clock from Central square. The line was exactly one mile and three-eighths in length, and occupied two hours in going over the route.

At the conclusion of the trades' procession, the wheelmen's parade took place. One hundred and fifty ladies and gentlemen took part.

In the afternoon 2000 people attended the ball game and horse races at Indian Rock Park.

Fire works and band concert on the Common, and a dancing party by the Wheelmen's Club in the evening closed the festivities.

BICYCLE PARADE AND RACES.

After the trades procession the procession of wheelmen took place from Central square to the common; 175 wheelmen, ladies and gentlemen, were in line and made a fine appearance.

The summary of bicycle races is as follows:

Five-mile handicap—Prizes, gold medal to first, silver medal to second and third. Otis Corbin, first; W. E. Knowlton, second; E. R. Cook, third; others, J. McSheehy, ReRoy Stott, S. Costello, W. Woods. Time, 18 min., 14 sec.

One-mile boys' race—Prizes, two silver medals. F. P. Wyman, first; W. Dunn, second; C. Connor, third; M. Knowlton. Time, 3.17 1-5.

One-mile open—Prizes, medals. Wm. Wood, first; C. Emerson, second; J. Costello, third. Time, 3.22 3-5.

[illegible] HOSE CONTEST,

[illegible] hose company, and [illegible]dic hose company, was won by Herdic hose, two trials. Time, 31 1-2 seconds.

THE AFTERNOON SPORTS

were held at Indian Rock park, where 2,000 people gathered to enjoy them. The ball game between the butchers and grocers, five innings, resulted in a crushing defeat to the butchers and Corson's white hat in a score of 5 for the butchers to 15 for the grocers. The features of the game were Emerson's beaver hat, Staples' sliding for the home plate, Wight's manipulation of the bat in his hands and in the crowd of spectators, and Sherman's trots from the ball ground to the race-course and back.

THE RACES.

Running race, half mile.

Arthur Lewis' Soda Water		1
W. F. Richardsod's Dixie		2
C. Guild, Green Corn		3

Time—1.10 1-2.

Trotting race, gentlemen's driving horses, mile heats, best three in five, owners to drive; for the oats.

J. A. Waterman's Wire Buckle	3	2	2	1	1
E. E. King's Close Shave	1	4	4	4	3
I. L. Smith's Shorts	2	3	3	3	2
E. B. Sherman's Bologna	4	1	1	2	d
A. J. Folger's Brown Bread	5	5	5		d

Time—3.19 1-4, 3.09, 3 14 1-2 3.06, 3.10.

E. B. Sherman's horse was withdrawn at the end of the fourth heat, and as it was a foregone conclusion that Waterman's horse would win the race it was closed at the end of the fifth heat.

Trotting race, between horses used in delivery wagons in town, half mile heats, best three in five; owners to drive; for the oats.

Hosie Bros.' Soft Solder	1	2	2
G. E. Emerson's Nancy Shanks	2	1	1
D. W. Corson's Four Pounds for Twenty-five Cents	1	3	3
Dean & Sherman's Fly-Blows	4	4	4
A. F. Staples' Watermelon	5	6	5
McKennon & Cody's Coffee	6	5	7
H. Shumsky's Limburger	7	9	9
T. M. Turner's Cottolene	8	7	6
H. S. Folger's State Bread	9	8	8

Emerson's Nancy Shanks was taken lame and a horse substituted, so he laid no claim to the oats. The race was given to Hosie Bros., first; D. W. Corson, second; Dean & Sherman, third.

Shumsky was called up by the judges for allowing his horse to break so many times. He claimed the horse didn't break, and said the horse commenced running under the wire and didn't stop until he got to the end of the mile.

King was called up under protest entered to the judges. It was claimed that his horse was entered at the Mystic races by the name of Puck, winning in 2.23 1-4. Mr. King, however, convinced the judges that such was not the case and was allowed to continue.

During the afternoon Dr. Martin gave an exhibition of the stalion Burdette and the yearling China Girl. Burdette trotted an exhibition mile in 2.33 1-4.

L. W. Milliken gave an exhibition of the fine points of his trotter Harry, who made a mile in 2.44 1-4.

EVENING ON THE COMMON.

The exercises of the day concluded with a fine display of fireworks from Horace Partridge & Co. on the common and a concert by the American band, when the following programme was rendered:

March—General Peach.....Theron Perkins
Sounds from Erin.....C. W. Bennet
The Coon's Picnic.....Laurendeau
Galop—Boys in Blue.....W. Y. Ripley
Waltz Song—She's My Darling.....S. Turney
Four Little Curly-Headed Coons...I. W. Wheeler
America.

The Franklin Wheel club finished the festive occasion with a social dance in Music Hall, where W. B. Sommers was floor manager, with Lincoln W. Morrison, Albert J. Reilly, C. M. Stanley and E. R. Cooks aids. Fitzgerald's orchestra furnished music.

THE DECORATIONS.

Many places in town were decorated in honor of the celebration. Among them were the residences of Dr. Milliken, C. L. Fales, George W. Wiggin, Mrs. A. A. Russegue and H. E. Batchelor's, Franklin Wheel club, Hotel Darling, J. A. Waterman's store, Richardson & Emerson's market, Dean & Sherman's market, Fletcher's block, stores and offices, C. P. Carter's, Wm. H. Colby's, Tobey's, Russell's store windows, and others.

SEEN ON THE ROUTE.

To single out individual displays for excellence would be superfluous, because all are entitled to that descriptive word. A few are mentioned, not because they were more original or better representations of the business, but because, from extent or some special feature, they were perhaps more prominent than others.

A. F. STAPLES'

float, with six horses, had a well-arranged and extensive lot of goods. Evidently a good deal of work, some money and much thought was put into the preparations. As Staples was one of the originals in the celebration it wouldn't do for him to be backward in coming forward.

J. H. BURRELL'S

float was the most aesthetic development of a thought in line. It was trimmed with the national colors on groundwork of brown; on the platform was a mammoth pink slipper, with Cinderella in the opening ready for the ball; at the toe of the slipper was the driver, a beautiful young lady in gala dress.

TROWBRIDGE PIANO CO.,

with banner, and employees marching in procession and teams showing the development of the piano, made every citizen of town feel proud that such an [illegible] within the few years [illegible] large proportions started. The appearance of the men was a compliment to themselves and to their employer.

Fire at Ashland's Catholic Church

Milford Daily News

October 24, 1892

ASHLAND.

The selectmen meet tonight.

The board of registrars will be in session Wednesday evening of this week.

An alarm of fire, last night called the department to a lively blaze in the Catholic church. The fire started in the vestry which is a projection of the main building Owing to the good work of the department the main building was saved, although the altars and main body of the church were much damaged by water. The ell in which the fire started is completely destroyed. The "Forty Hours' Devotion" were in progress, and evening serviceswere concluded but a short time before. The loss is fully covered by insurance.
